Paving set for several state highways in Catlettsburg, Ashland area *Watch for work zones, one-lane traffic*

FLEMINGSBURG, Ky. – Motorists should watch for roadway work zones and one-lane traffic in Ashland and Catlettsburg as work continues on several Kentucky Transportation Cabinet paving projects.

In Ashland, contractors expect to finish paving a rural section of KY 168 (Blackburn Avenue) – from US 23 to the South 29th Street area – by late Friday, June 15. Until then, motorists will encounter one-lane traffic controlled by flaggers, and should expect delays.

In Catlettsburg, on Monday, June 18, contractors will begin paving 34th Street (KY 1174) and 0.4 miles of KY 2537 (Broadway). Traffic will be flagged in one lane from approximately 7 a.m. to 6 p.m. Weather permitting, work should be completed that day.

On Wednesday, June 20, paving operations will move to KY 1725 (Bellefonte Road) just north of Ashland, where traffic will be one lane as crews work between US 23 and Diedrich Boulevard.

Meanwhile, work is continuing on handicapped-accessible sidewalk ramps along the urban section of KY 168 (Blackburn Avenue) from 13th Street to South 29th Street. Contractors are expected to pave that section of highway once all ramps are installed. Motorists should watch for daily one-lane traffic on KY 168 now until the end of June or early July.
